SPORTS MEDICINE & PERFORMANCE

In Your Corner

\$399/mo

For a relatively healthy body under a demanding block (marathon build, Hyrox prep): managing the aches and pains of hard training, not a specific injury that demands closer attention. Short term, month to month.

Monthly, includes: two in-person maintenance sessions a month, ongoing CoachRx app programming, direct messaging, and load and symptom monitoring as training climbs.

As Needed

\$199/session

Drop in when something feels off, with no monthly commitment. A focused one-on-one session with hands-on work, plus a clear plan for the days after.

Per session: book as often or as rarely as needed, with the same provider who knows their history.

Online Rehab Coaching

REMOTE · ANYWHERE

Rehab coaching that goes where the client goes, guided by a Doctor of Physical Therapy, to keep recovery moving between visits with an in-person provider.

3-Month	\$1,347 total	\$449/mo
6-Month	\$2,394 total	\$399/mo
Ongoing Monthly	after an initial 3- or 6-month program	\$349/mo
